## GROUP SHOT LIST

Please specify names for each group shot – this saves a lot of time on the day! Note that an entire group shot can take up to 15 mins and the best time to do this is just before you are called into eat. Each family shot can take 3 mins. It's helpful to have someone on the day to gather people on each family side. Please let these people know they'll be needed to help out, and please give them a copy of this list thanks!
